

VA210-A

Wireless Speakerphone

VA210-A is a new generation of wireless audio microphone, an enterprise-level microphone for personal office and small and medium-sized meeting rooms. The audio adopts the international advanced high-definition voice processing technology, adaptive 48KHz full-duplex echo cancellation, equipped with high-definition audio technology, the call sound is clear and natural, and can be heard clearly and heard in the meeting. High-quality pickup distance, and through intelligent noise cancellation technology, effectively avoid noise interference. Plug and play, you can quickly connect to computers, smartphones and tablets via USB wired, wireless receivers or Bluetooth, without additional drivers, easy to use, and audio and video conferences at any time. Multiple touch buttons interact with the LED light strip, which is convenient for users to understand and use. Provide high-quality full-duplex experience, giving users an immersive call experience.

Voice Technology:

support deep echo cancellation (AEC), automatic gain control technology (AGC), two-way noise compression (NC), intelligent microphone automatic direction finding technology (EMI), and full frequency domain zero-damage compression of human voice; 5x zoom lens, with 83.7° wide view angle without distortion.;

Plug and play | Wireless connection:

USB plug and play, supports Windows, Android, IOS, Linux systems; supports Multi-system support: wireless connection through a wireless adapter, which reduces wiring and is more convenient;

Multi-system support | Bluetooth connection:

support WeChat, Skype, Skype for business, zoom, Vidyo and other domestic and foreign network conference software platforms; supports Bluetooth connection and hands-free conference calls with mobile phones;

High-quality speaker | Convenient control:

speaker volume up to 95dB, 16-level speaker volume digital adjustment; VA210-A has multiple built-in control buttons to make the control more convenient;

Technical specifications

Spec/Model NO		Dimension(unit:mm)
Voice technical parameters	Acoustic Echo cancellation (AEC) : >65dB	
	Echo length cancellation: ≥400ms	
	Bidirectional noise compression (NC) : <25dB	
	Automatic Direction finding Technology of Intelligent microphone (EMI)	
	AI Intelligent framing	
Audio parameters	Microphone frequency response: 100Hz-22KHz	
	Speaker frequency response: 100Hz-22KHz	
	Speaker volume: 95dB at the most	
	Microphone sound-pickup diameter: 6 meters, 360 degrees full range	
Bluetooth	Bluetooth devices available	
IR Reception	Angle: 360°	
	Distance: 10m	
	IR Transparent transmission available	
External Mic (optional)	2 external microphones can be connected, making the sound-pickup diameter up to 10 meters
